Avenue, suite 307, Fort Lee,
New Jersey 07024

Our mission is to improve the overall quality of life by helping people with aphasia improve their ability to communicate.

How do we do this?

- Target person-centered functional goals
- Utilize impairment and context-based therapy approaches
- Optimize an individual's potential to participate in activities meaningful to them
- Maximize outcomes that lead to functional improvements that matter to the individual
- To facilitate partnership that ensures the individual and family needs are achieved

Our Services

- We offer comprehensive diagnostic evaluations and speech language therapy in English and Korean. Our highly qualified New York and New Jersey State Licensed Speech pathologists strive to help our patients maximize their potential

Treatment

- Verb Network Strengthening Training, Semantic Feature Analysis, Apraxia of Speech, Anagram Copy and Recall Treatment, Script Training, Constraint Induced Language Therapy, Phonomotor Treatment and more...
