

# Do you have aphasia?

## Participate in a Language Treatment Study!

### Purpose:

Persons with aphasia are invited to participate in a language treatment study. We are seeking participants with aphasia who want to improve their ability to talk in sentences and stories.

### What's involved?

- Initial testing sessions to determine eligibility.
- If eligible, participants will receive up to 15 treatment sessions.
- Total study duration is 4-5 months.
- Sessions will be delivered in-person at Purdue or remotely.

### Who's eligible?

To be eligible, you should:

- Have aphasia as a result of stroke.
- Have no history of other neurological conditions
- Be a native speaker of North American English.
- Have access to stable internet and a laptop.
