

Recruiting Research Participants

Phonological Cueing For Word Retrieval

We want to know which phonological cues help people with aphasia to produce words.

Eligibility:

- Adults, 18 years of age or older
- Self-reported history of Aphasia
- Experiences difficulty with word retrieval

What will you do:

- Tell us about yourself and word retrieval experiences
- Identify difficult words
- Produce words and sounds
- You will receive monetary compensation

Where and for how long?

- UB South Campus (Buffalo, NY) or over Zoom
- 3 test sessions over 3-4 weeks
 - 1st session - 90 minutes
 - 2nd and 3rd sessions - 60 minutes

Interested?

- Call: 716-829-5546
- Email: ubalnlab@buffalo.edu
